Drinks List

Dear BartenderDude.com Customer:

The bar selections listed below is intended for a very functional bar. I advise you to choose the brand that is most popular at your past events. Once you have made your selections, use the following formula:

- 🍹 One (1) liter bottle serves approximately 20 drinks (i.e. serves about 7 guests; 3 drinks per person average).
- 🍹 One (1) 750ml bottle serves approximately 15 drinks (i.e. serves 5 guests; 3 drinks per person).
- 🍹 DO NOT FORGET ICE IS REQUIRED TO SERVE DRINKS (about 2 lbs per person)
- 🍹 You should plan to serve at least three (3) drinks per person.
- 🍹 AIM to have ALL Mixers & Garnishes available please.
